Search by features

- Available at <http://www.cs.wm.edu/~yhe04/CBS/features.php>
- Displays all the classrooms in the database. User can check some features to filter the results. If the user checks “chalkboard” and “whiteboard” at the same time, it will search for room featuring “both”.
- User can also type in the minimum number of outlets and capacity demanded. Input field uses HTML5 number type, so user can only type in numbers greater than 0, or he will get an error.
